DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

Located at 69 Greene Street, the building stands on the northerly side of the street to the east of Johnson Street in Cumberland, Allegany County.

The building is a two and a half story brick house with a cut stone foundation, double internal end chimneys, an end hall floor plan two rooms deep, and a parapet on the west end wall. The symmetrically arranged facade (south side) has three bays with wood lintels and sills on windows and an elaborate enframement around the doorway. The original enframenet was replaced in the summer of 1974. The principal windows are double-hung wooden sashes. The first windows are long and have four-over-four lights while the second sashes have two-over-two lights. The low pitch roof overhangs considerably and around the west end wall as though it was added later.

The building appears to be structurally sound.

**STATEMENT OF SIGNIFICANCE**

The house at 69 Greene Street was probably built in the 1840s or 1850s and renovated a few years later. The roof overhang, the shape of the windows combined with the general stylistic features of the structure tends to give evidence that the house was remodeled.
